

Good Shoes. Happy Feet. Big Adventures.

FIND THEIR SIZE

Just 4 easy steps!

1 PLACE

Place your child's heel against the solid line at the bottom of the chart.

2 MEASURE

Have your child stand tall. Mark the tip of the longest toe. Measure the distance in cm from the heel line to the mark.

3 ADD ROOM

Add about 1–1.5 cm (thumb width) for growing room.

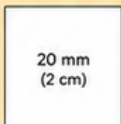

4 FIND SIZE

Use the measurement on the chart to find the corresponding US and EU kids' shoe size.

★ TIPS

- ✓ Measure both feet – use the longer one.
- ✓ Measure in the evening when feet are slightly bigger.
- ✓ Make sure your child is standing straight.
- ✓ Re-measure every 6–12 weeks.

ACCURACY CHECK

This square should measure 20 mm x 20 mm (2 cm x 2 cm). If it does, your chart is printed at the correct size!

★ IMPORTANT REMINDER

Sizes can vary between brands. Always try shoes on if possible.
